

BARAKA Whitepaper

1. Abstract

BARAKA is a decentralized crypto project designed to bridge the gap between the Western and Islamic worlds by enabling global Muslims to fulfill their Zakat obligations with ease, transparency, and trust. Built on the Solana blockchain, BARAKA offers a secure, AI-powered platform that facilitates anonymous and verified donations to approved Zakat organizations using the native BRK token.

2. Introduction: The Problem

Despite the \$600+ billion potential Zakat market globally, most Muslims lack a reliable, easy-to-use platform for secure and verifiable giving.

3. Our Mission

To empower every Muslim to give 2.5% Zakat easily, transparently, and anonymously via crypto while connecting certified Islamic charities worldwide under one seamless platform.

4. The Solution: BARAKA Platform

BARAKA is a mobile-first platform and WebApp powered by the BRK token, offering wallet integration, approved charity list, recurring or one-time donations, anonymous options, and transparent tracking.

5. User Journey Overview

1. Connect Wallet
2. Swap SOL to BRK
3. Select Zakat-compliant organization
4. Set donation amount
5. Approve donation
6. Track impact on dashboard

BARAKA Whitepaper

6. Tokenomics

Total Supply: 1,000,000,000 BRK

Minting: Fixed supply

Allocation: 10% Foundation, 5% Team, 85% Ecosystem (donation-triggered emission)

7. Zakat-Driven Emission Model

Tokens are released only when donations occur. Emission tied to charity activity. Complete emission by ~2141. Quarterly halving.

8. Scarcity & Burn Mechanism

A percentage of BRK is burned with each donation, reducing supply and increasing value.

9. Governance & Transparency

Anonymous founders initially. All contracts audited. Verified charity onboarding. No airdrops.

10. Roadmap

Q2 2025: Token creation, Private Sale

Q3 2025: BRK Launch, Trading Live

Q3-Q4 2025: Platform v1

Q1 2026: Full dApp launch

Q2 2026: Staking, CEX listing

Later: DAO, Cross-chain

11. Smart Contracts & Audit

AI-generated smart contracts. Reviewed before launch. Upgradeable. Lock-in periods for investors.

BARAKA Whitepaper

12. The Team: Human + AI

Jonathan Khalifa (AI persona). Team includes devs and community managers.

13. Private Sale Details

Until 1 week before launch (1/7). Minimum \$10,000 in SOL. Manual transfer. Private group access. Lock-in + discount.

14. Charity Onboarding

Manual verification by team. Legal docs and Zakat compliance needed.

15. Platform Features (v1)

Web + Mobile. Wallet, Buy/Sell BRK, Charities, Donations, Dashboard, Multi-language, Anonymous mode.

16. Legal & Regulatory

Anonymous pre-launch. Legal entity post-launch. KYC for charities only.

17. Community & Marketing

Organic content on major platforms. Influencer program. No airdrops.

18. Future Vision

Wallet integration. DAO. Charity voting. QR code donations. SDK + API.

19. Final Words

BARAKA is more than a token. Its a mission to restore trust and transparency in Islamic charitable giving.
