

BARAKA – Lightpaper

■ Vision: A Bridge Between East and West

BARAKA is more than just a token. It is a movement. A mission to create a financial and spiritual bridge between the Islamic world and the global blockchain ecosystem.

Through the power of crypto and smart contracts, we are building a platform that enables Muslims around the world to easily and transparently give their Zakat (2.5% charitable contribution) – with the option to donate anonymously – using the BARAKA token.

■ What Makes BARAKA Unique?

- Zakat-Centric Model: Every donation powers the BARAKA ecosystem. Coins are released and burned based on real-world giving.
- Verified Charities Only: All donation recipients must go through a strict verification process.
- Anonymous Giving: Donors may choose to give in full privacy.
- AI-Driven Infrastructure: Smart contracts and initial tools are developed using AI + human oversight.
- No KYC Required for Donors: Only charities must go through the verification process.

■ Platform Overview

Launching one month after the token, our donation platform will include:

- Web & Mobile App
- Wallet Connection (Phantom + more)
- Buy / Swap / Donate in BARAKA
- Charity Directory & One-Click Zakat
- User Dashboard & History
- Charity Management Panel
- Arabic & English UI

■ Tokenomics

- Total Supply: 1,000,000,000 \$BRK (fixed, no additional minting)
- Distribution:
 - 10% – Baraka Foundation
 - 5% – Team & Development
 - 85% – Community (gradually released via donations)
- Emission Model: Coins are unlocked through verified donations.
- Burn Mechanism: A portion of every donation is burned to increase scarcity.

■■ Trust & Transparency

- Manual Vesting for Private Investors
- No Airdrops
- Audit planned before launch
- Smart Contract Upgradeable
- Anonymous Founders (at launch stage)

■■ Launch Timeline

- Now → July 1: Private Sale (minimum \$10K, SOL only, manually processed)
- July 7, 2025: \$BRK token launches on Solana – tradable on Phantom Wallet
- August 7, 2025: Platform v1 Launch (Web + App)
- Q3 2025: Staking module, burn logic, major CEX listing prep

■ Led by Vision, Powered by AI

Meet Jonathan Khalifa, our AI spokesperson and symbolic founder. He represents the voice of our mission – anonymous, intelligent, and driven by purpose.
